

Network Administrator

Honolulu, HI

The Baldwin Group, Inc. (TBG) (www.tbgroupconsultants.com) is looking for a motivated individual to serve as a Network Administrator for the NOAA Pacific Services Center (PSC) in Honolulu, Hawaii (www.csc.noaa.gov/psc). The Information Technology Specialist will be a member of our IT support team and will play a role in all aspects of the Center's IT initiatives. The position provides a wide range of opportunities to work with various technologies and to potentially introduce new technologies to the Center.

Duties

- Day-to-day systems management for internal IT operations (server & workstation support, some Mac support, monthly security scans, etc.)
- Resolve technical issues as submitted by customers and routed through the help desk
- Research, analyze, and make recommendations for hardware, software, and other system standards and configurations
- Coordinate with non-IT staff to determine project requirements and timelines
- Periodic emergency & monthly IT maintenance to be completed after hours or on weekends

Qualifications

- Bachelors degree and three years experience or equivalent work experience
- Highly motivated, self starter who is comfortable working on their own
- Successful track record supporting and configuring Microsoft Operating Systems in an enterprise environment
- Experience with Dell servers
- Demonstrated experience in configuration management practices
- Highly motivated, team player, with good communications
- Ability to lift and move over 50 lbs
- Must pass a government security investigation as required by the United States Dept. of Commerce and NOAA

Desired Skills

- Windows Operating System support (Server 2003/2008, Windows 7)
- Industry certifications a plus
- Microsoft SCCM troubleshooting
- Experience with the ESRI suite of GIS software highly desirable
- Configuration management practices
- Familiarity with Cisco/networking hardware
